For the purpose of this Schedule the expression “the Estate” is to be understood as meaning the whole or portion, as the case may be, passing to each person of all the property of the deceased situate outside the Colony as well as the property of the deceased within the Colony.

- (a.) But when the whole or any portion of such Estate passes to the husband or wife of the deceased absolutely, no Estate Duty is payable on such whole or portion as the case may be.
- (b.) When the whole or any portion of such Estate passes to the husband or wife of the deceased, otherwise than absolutely, or a lawful issue or ancestor of the deceased, one-half only of such rate is payable on such whole or portion as the case may be, of the property chargeable with the duty.
- (c.) When the whole or any portion of such Estate passes to any other person than the husband, wife, lawful issue, ancestor, or brother or sister, or the lawful issue of such brother or sister of the deceased, one-and-a-half times such rate is payable on such whole or portion, as the case may be, of the property chargeable with the duty.

Note.—The whole or portion of the “Estate” for the purposes of the rate of duty will not in all cases be the same as the whole or portion of the property chargeable with the duty, as in some cases all or some of the property of the deceased outside the Colony will not form part of the property chargeable with duty.

BANKRUPTCY ORDINANCE No. 8 OF 1907.—Continued.

PETITIONING CREDITORS' COSTS.—Continued.

The petitioning creditor's Solicitor may be allowed all proper charges at the rate specified in the scale for all work necessarily or usually done in the interest of the creditors generally for the protection or benefit of the estate between the presentation of the petition and the date of the receiving order, if the receiver or trustee shall certify that the work done was necessary or useful. Such certificate may be given by the signature of the receiver or trustee to a memorandum containing such certificate at the foot of the bill of costs.

In exceptional cases where the petitioning creditor's Solicitor has from the presentation of the petition rendered special services in the interest of the creditors generally, and such services shall have assisted to preserve or increase the assets, or otherwise been of substantial advantage to the estate, all proper charges for such services at the rate specified in the scale may be allowed upon a certificate signed by the receiver or trustee to that effect which may be given by a memorandum containing such certificate at the foot of the bill of costs.

When the receiver employs the petitioning creditor's Solicitor or the debtor's or other Solicitor to take any steps for the protection or benefit of the estate or in other matters not included in the foregoing scale, the costs of the work done under such employment in the absence of any special agreement with the receiver, may be allowed.

Where the petition is opposed costs may be allowed in addition for necessary matters, such allowance shall be made in conformity with the scale as nearly as may be of costs in the Supreme Court.

(A.)

FUNDED DEBT AT 31ST DECEMBER, 1917.

Present Debt.	REMARKS.
£ s. d.	
...	(a.) { These Bonds were payable by the Crown Agents and the Receiver-General at their offices in London and Trinidad respectively, by annual instalments, by means of a Sinking Fund equal to one per cent. per annum on the total amount of Debentures issued and five per cent. on the amount of the Bonds already drawn. The repayments commenced in March 1874 and were made by annual drawings, by lot, in the presence of a Notary Public. The Bonds were finally paid off in March, 1911.
1,200 0 0	(b.) { These Bonds are payable by the Crown Agents at their Office in London under the same conditions as stated above. Interest is payable half-yearly on the 15th March and 15th September.
7,800 0 0	(c.) { These Bonds are payable by the Crown Agents by annual instalments, by means of a Sinking Fund equal to one per cent. on the total amount of Debentures issued plus 4 per cent. on the value of the drawn Bonds. Interest is paid on 15th March and 15th September. The final payment, in respect of the Bonds issued under Ordinance 8 of 1880, will be made about March, 1924. The whole of the outstanding Debentures issued under Ordinance 1 of 1882 were converted into Inscribed Stock in 1896.
9,000 0 0	
70,260 0 0	(d.) { These Bonds will be redeemable from the 15th June, 1925 by annual drawings to be held by the Receiver-General at his Office, in the presence of a Notary Public to be appointed by the Governor for the purpose. The amount payable each year shall be one-twentieth part of the Loan raised. Interest is payable half-yearly on the 15th June and 15th December.
79,260 0 0	
322,592 19 6	(e.) { Stocks were given in exchange for Bonds in accordance with proposals contained in a prospectus issued by the Crown Agents in April, 1892, by which the holders of Debentures were offered an opportunity of conversion into 4 per cent. Inscribed Stock. The amount of Debentures surrendered in exchange for Inscribed Stock is £346,200. The Stock will be repayable on the 15th March, 1917-1942 by the operation of a Sinking Fund of one per cent. per annum which commenced on 15th July, 1897. The Sinking Fund is invested in Colonial Stocks. Interest on the Loan is payable on 15th March and 15th September. —(Vide Council Paper No. 88 of 1897.)
100,000 0 0	(f.) { These Stocks will be repayable on the 15th March, 1917-1942 by the operation of a Sinking Fund of one per cent. per annum on the total amount issued, commencing as from 15th January, 1893. Interest on the Loan is payable on 15th March and 15th September.
400,000 0 0	
100,000 0 0	(g.) { These loans will be paid off on the 15th July, 1922-1944 by the operation of a Sinking Fund of one per cent. per annum on the total amount of Stock issued, commencing as from 15th January, 1898. Interest on the Loan is payable on 15th January, and 15th July.
100,000 0 0	
550,00 0 0	(h.) { This loan will be repayable at par on the 15th March, 1917-1942 by a Sinking Fund of one per cent. per annum to be formed under the management of the Crown Agents for the Colonies who are appointed Trustees. The interest at the rate of 4 per cent. per annum will be payable half-yearly on the 15th March and 15th September in each year by Dividend Warrants, the first payment becoming due on the 15th September, 1914.

Improvements in Agriculture and Manufactures introduced this year.

Progress of any Improvements previously reported.

Sugar.—The raising of seedling canes has been restarted after being in abeyance for many years, during which introductions, particularly from Barbados have been relied on for the necessary improved varieties. At one factory initial preparations have been completed to increase the capacity by 8,000 tons of sugar; this is dependent however on "protection" for sugar. Another has increased its capacity from 800 to 1,500 tons. Several have effected improvements without increasing their capacity. Two new small factories are working in Trinidad and there has been increased activity in the small Tobago factories. Implemental tillage, including the use of tractors, is extending. The froghopper pest continues to be a serious problem. Research has been continued but without definite beneficial results. The damage done by this insect was more serious than for any year since the season 1912-13. A Cane Farmer's Competition has been started.

Cacao.—The budding of old trees has been successfully accomplished and experiments started to test the value of the method as a means of converting poor-bearing into good-bearing trees. There is a general tendency to improved cultivation and more attention is being given to spraying on estates. A Prize Competition for small cultivators was held in Tobago.

Coconuts.—There has been a marked increase in coconut cultivation in both Trinidad and Tobago.

Rice.—A Prize Competition amongst rice growers was held during the year.

Food Supply.—The increased production of local foods has been encouraged by meetings throughout the Colony, publications, prize competitions, and the establishment of a Government Ground Provisions Depot. The preparation and use of flour substitutes have also received much attention.

Castor Oil.—The production of Castor oil seed has been encouraged.

Agricultural Credit Societies.—Two Societies have been registered under the new Ordinance.

Stock.—Two new Jack donkeys have been imported from the United States.

Cacao.—The budding of cacao on an estate scale is making satisfactory progress in experiments on both Government and private estates.

Sugar.—The sugar cane nurseries has continued to be of use to estates.

Rubber.—Experimental work has mostly been on the subject of the tapping interval of Hevea which is of importance owing to the relative high cost of labour compared with the East.

Fruits.—Increased attention has been given to fruit and promising results obtained with introduced varieties of grape fruit.

Progress of any Improvements previously reported.

Limes.—The cultivation of this crop is extending and three factories are now at work.

Coffee.—Increased planting continues, particularly *Robusta* and more recently of *Excelsa* coffee also.

Tobacco and Cigarette, Angostura Bitters, Chocolate, Match, Ice, and Coconut Oil Factories and a Brewery are successfully working.

Timber.—A private steam saw-mill established in the forest at Cumuto is working up on the spot trees which were formerly allowed to waste when lands were cleared.

The Trinidad Electric Company, Ltd., now controls the various lines of the Port-of-Spain Tram service, as also the lighting of public buildings and dwelling-houses by electricity. The Telephone system is worked by the Trinidad Consolidated Telephones, Limited. The Telephone system of Tobago is worked by the Government.

Petroleum. *See* Return AA. for development of Oilfields.

The Dry Dock (Trinidad Dock and Engineering Company, Ltd.) opened in 1907, was at the close of 1909-10 purchased by the Government.

The Railway extensions from Tabaquite to Poole and San Fernando to Siparia have been completed.

<p><i>Asphalt.</i>—The Pitch or Asphalt deposit at La Brea continues to be a fruitful source of revenue. The so-called “Pitch Lake” covering an area of 114 acres has been leased to the Trinidad Asphalt Co., since 1st January, 1888. In 1887 the revenue from Asphalt was £5,113, in 1888 the first year of the Concession it bounded up to £17,188, and during the year ending 31st December, 1917, including Export dues and Royalty it amounted to £44,907.</p> <p><i>Manjak.</i>—Only one Company was engaged in winning this mineral during the year.</p> <p><i>Mineral Oils.</i>—The development of the Oilfields continues in a satisfactory manner. The number of Companies operating at the close of the year was eleven, but there is every reason to expect that at the close of the War other substantial concerns will commence operations. During the year 56,080,914 Imperial Gallons of Crude Oil were extracted, and of this quantity, 14,657,643 Imperial Gallons were exported.</p> <p>The use of Oil fuel in the Colony is steadily increasing, and a good many ships now call and take in oil fuel for bunker purposes. During the year 21,232,928 Imperial Gallons of oil fuel were exported.</p> <p><i>Petrol, Kerosene and Lubricating Oil</i> continue to be manufactured in local refineries, the production of the first named having greatly increased and altogether replaced the imported article. 1,270,117 Imperial Gallons of Petrol, 549,431 Imperial Gallons of Kerosene and 67,792 Imperial Gallons of Lubricating Oil were exported.</p> <p><i>Quarries.</i>—Stone and Gravel Quarries are scattered over the Colony. Those in Port-of-Spain and San Fernando are chiefly owned by private parties, whilst those in the country districts are almost entirely owned by the Government.</p>	<p>Fishing Schooner “Nellie,” 99 tons net, average catch 15,000 lbs. net per month, for the supply of Port-of-Spain.</p>	<p>No return.—The principal fishing Stations are :—Carenage (S. Pierre and L’Ance Coco), Corbeau Town and Macqueripe Bay supplying Port-of-Spain, and San Fernando supplying Naparima. A small colony of Italian fishermen from the Mediterranean carry on a trawling business.</p>	<p>Grouper, King fish, Mackerel, Salmon, Red fish, Cavally, Mullet, Prawns, etc., etc.—Quantity unknown.</p> <p>No return.</p>

RETURN FOR THE PRISONS OF TRINIDAD FOR THE YEAR ENDING ON THE 31st DECEMBER, 1917.

The Prisons of the Colony consist of :—

The Royal Gaol, Port-of-Spain.

The Female Prison at St. James.**

The Carrera Prison.

All prisoners are committed to the Royal Gaol, from whence a portion of the male convicts are transferred to the Carrera Prison and the females to the Female Prison.

A District Prison at Tobago at which prisoners committed for any period not exceeding six months may be detained.

District Prisons at Toco, Mayaro, Cedros, Blanchisseuse, and the Constabulary Barracks, Port-of-Spain, at which prisoners committed for thirty days and under may be detained.

A Prison at the Leper Asylum, Cocorite, for the detention of Lepers.

QUESTIONS.

I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III. How many Cells are there; and how many associated Wards?

IV. Taking the *average* number of prisoners in Gaol,
(a) how many cubic feet of space are there for each prisoner during the hours of sleep?

(b.) And what superficial area?

ANSWERS.

At the *Royal Gaol* and *Female Prison* there is separation at night, as far as Cell accommodation permits. At the *Carrera Prison* there is separation at night. By day the majority of the prisoners work in association.

All prisoners in association by day are under the constant supervision of Warders, if males, or of Matrons, if females. The male prisoners in association during the night are frequently inspected by Warders, through inspection holes in the doors.
